Road Closure Notification

On Sunday the 5th June, The Wales Marathon will be held here in Pembrokeshire, and we are desperately trying to include as many people and communities as possible.

Below is an approximate timing Schedule for the road closure. These times are conservative and once the last runner is through a sterile Zone and the area cleaned, the roads will reopen, even if it is before the posted time. We are aware that communities, farms and business premises need to operate on Sundays and this is why we have a large team to ensure the roads are opened as quickly as possible.

The Wales Marathon have been very forthcoming in donations to the Young Farmers, PTA, local football and rugby clubs through their marshal feedback scheme, giving £200 if any group gets 10 or more marshals together for the event. If you are part of a coffee group, sports team, school, young Farmers or just have people in the community that would like to Marshall and help the runners come through your area safely please call Fran on 01437 765777.

If you have never seen a marathon before, please come out and support. Many runners are running for charities close to their hearts, some for organizations such as school funds, Young Farmers, drama clubs and Children's recreational areas. It all will hopefully raise funds to ensure money goes to great causes helping Pembrokeshire at the core where it matters.

Cheer, shout, offer Jelly babies (my favourite!!) or just give them a wave. If you can spare the time on Sunday as they pass it does make a huge difference to see a friendly smile as you run along the 26.2 mile course!

Thank you again in advance and should you have any questions please call Fran or Matthew at Activity Wales on 01437 765777 and they will be happy to chat through the specific traffic plan in your area with more detail.

Diolch!
